Eliels will be present. A supper will be enjoyed after the work.

All Scotsmen in New-York were greatly astonished last evening to see a published statement to this effect: "One hundred and thirty-one years ago to-day was born the great bard of Scotland, Robert Burns." This information seems to be entirely exclusive. All the Scottish societies in this city and in the world have been laboring under the impression that "Colin's Robin" was born in 1759 on "the day they celebrate."

William G. Hamilton has subscribed \$100 to the Washington Memorial Arch Fund, which now amounts to \$1,515.12.

It is estimated that when the stakes start from Eighty-ninth, and Forty-ninth, they will each lose one trip a day, because the distance of the round trip will be increased by two miles." Of course in these matters "The Mail and Express" speaks with authority. The judgment was in favor of E. F. Shepard.

Assistant District Attorney Sample returned from Binghamton yesterday. He had been present at the dismissal of the indictment against ex-Alderman Thomas Cleary. TO COMMAND THE DISPATCH BOAT DOLPHIN.

Commander Yates Stirling, Jr., who has commanded the receiving ship Dale, at the Washington Navy Yard, for the last three years, and who has been ordered to relieve Commander Charles O'Neill of the command of the dispatch boat Dolphin, will probably meet the vessel at Key West, where she is expected in a few days. Several weeks ago the Tribune said that Commander William M. Folger, the Inspector of ordnance at the Naval Ordnance Foundry at Washington, would be made Chief of Bureau of Ordnance to succeed Commodore Seward, that Commander O'Neill, who had been Inspector of ordnance at the New-York Navy Yard for three years before he was ordered to the command of the Dolphin, would succeed Commander Folger at the Naval Ordnance Foundry, and that Commander Stirling would be ordered to command the Dolphin.

COMMANDER WHITING ORDERED TO DUTY.

The ordering of Commander William H. Whiting to duty at the Navy Yard was a surprise to the officers yesterday. He will be the relief of Commander James D. Graham, who was detained several days ago. Commander Whiting was equipment officer at the Navy Yard for a long time until last fall, when he was detained and received a year's leave of absence. Just as he was about to start for Europe he was ordered to the temporary command of the Keasarge, to take United States Minister Douglass and his family to Hayti, owing to a violent indisposition of the ship's commanding officer. The Keasarge was detained at the port of Callao, Peru, while the return of the vessel. BUCKET-SHOP KEEPERS ARRESTED.

Captain McLaughlin, of the old Six-ship, with Detectives Oates and Nugent, raided three bucket-shop restaurants yesterday. They first visited the Opera House, of Broad-terrace, and Inspector Moran Morris, who made an investigation, yesterday reported to the board that the offensive smell came from a big sewer below the stage. His report was sent to the Department of Health, which is to be party demented. Warden Grimes has been possessed of the valuable.

PURCHASES AT \$200 A SHARE HAD BEEN MADE FROM THE SMALL STOCKHOLDERS, AND THESE INSURED THE SYNDICATE A MAJORITY.

CONTROLLER MYERS NOT SATISFIED WITH THE EXPLANATION FOR THE Elevated ROADS.

The officials of the Finance Department, who are engaged upon the work of finding out how much the surface and elevated roads are in arrears to the city, devoted a part of yesterday to examining the law of the case. Superintendent Daly said that there was no question as to the right of the city authorities to overhaul the books and accounts of the various companies. In pursuance of this conclusion John C. Schoenberger, an expert accountant of the Bureau of City Revenue, will be sent to inspect the accounts of the Manhattan Elevated Railway Company to-day. Mr. Daly said that he believed that the rail-way officials would courteously offer every possible assistance in the examination. The whole question at issue was "What is the net income of a railroad?" It might be that a conflict of opinion would have to be settled by the courts.

CONTROLLER MYERS yesterday said that the explanation of Vice-President Galloway, of the Manhattan road, published yesterday, was far from convincing.

"The Third and Ninth ave. lines," the Controller said, "by the terms of their franchise, are required to pay 5 per cent. of their net earnings to the city. When the Manhattan Company does not guarantee its capital stock, it gives up its franchise, paying the apparent income of the stock to the city." The amount to be paid to Mr. Galloway, upon which the city is entitled to a 5 per cent. tax. My position is that the rail-way officials would be compelled by any subsequent lease.

According to Mr. Galloway the Manhattan Company could lease the New-York roads for \$1 million a year, upon which the city would be entitled to 5 cents a mile.

He believed that he had paid to the city

more than \$100,000 in interest on the two weeks.

He has reason to explain why he entered into the second matrimonial alliance. Smith will be sentenced on Friday.

Price, Newark; grand grand-saint, H. L. Lourie, of Paterson; grand grand-saint, J. H. Blackford; grand sentinel, E. B. Cole, representative to Supreme Council, D. F. Rutan; alternate, Edward Slater, of Newark; the delegates to the Supreme Council was instructed to vote for the abolition of the two grades which now exist, the royal and the select.

The Road of Aldermen last night passed an ordinance requiring the managers of horse races, boxing and athletic shows, and concert halls where liquors is sold, to procure licenses. The licenses will be granted by the Committee on Exhibitions, which is authorized to charge not less than \$10 nor more than \$500 a night. Enforcement of this ordinance will wipe out the concert halls.

PATERSON.

A DAY NURSERY FOR POOR CHILDREN.

The old mansion between Straight and the Erie Railway tracks, once the home of the late F. C. Beck with founder of the Paterson Iron Works, is now occupied by the Children's Day Nursery, an institution which cares for children whose mothers are at work until their mothers come to claim them.

Yet the negotiations for an international race are not so far advanced as they were last year, when no race could be arranged.

The month notice clause of the new deed of gift must be given now to make a race possible, and the conclusion must be that if any change from the other side is considered at all it must be looked at from the point of view as was the Dumravens challenge last season.

Dumraven, in his last letter to the New-York Yacht Club, dated August 16, 1889, expressed the hope that a contest might be held this year, and this practically leaves his challenge open. London papers are, it seems, under the impression that the existing Dumravens challenge must be disposed of before a challenge by Jameson or Bell may be considered. One of the two families, and I propose to act upon that principle and compel them to pay what they originally agreed to pay."

WHAT MUST BE DONE TO SECURE AN INTERNATIONA YACHT RACE.

Recent disputes have indicated that the American's cup subject again begins to be disputed by yachtmen on the other side. Rumors of all sorts are flying about in Britain with reference to new yacht clubs to be formed.
